2011 FACTORY DIRECT PRICING FOR LIFETIME PLAY SYSTEMS

Custom Built - Lifetime Warranty - see warranty for complete details

Our PlayNation Lifetime Systems can be ordered with your choice of either Premium Preserved Southern Yellow Pine or California Redwood with Western Red Cedar. Our Premium Preserved Pine is grown and milled in the U.S.A. It is double kiln dried to minimize shrinkage, warping, and cupping. We then protected it with the latest and safest wood preservative available to shield against termite attack and fungal decay - all while remaining clean, odorless, non-staining, and non-irritating to humans, animals, or plants. Our Premium Preserved Pine can withstand harsh weather conditions with minimal maintenance, making it a great choice for lumber built swing sets. Our Beautiful California Redwood with Western Red Cedar play sets are a natural alternative to preserved lumber. California Redwood naturally resists rot and decay caused by the environment or by insect infestation.

2011 FACTORY DIRECT PRICING FOR ALL INCLUSIVE PLAY SYSTEMS

Non Customizable - 15 year Warranty - see warranty for complete details

All of our Mystic Series Play Systems are made with Cedar. Similar to redwood, Cedar is naturally resistant to rot, decay, and insect damage - all while offering an affordable, naturally resistant option in backyard fun.

All of our Cedar Play Systems receive a factory applied stain/sealant to protect the lumber. Some of our Mystic Series Play Systems feature our maintenance-free Timber Shield protective poly coating. These attractive, splinter-free, treated fir timbers are coated with a thick, green, polyethylene casing that shields the wood from the weather, making them virtually maintenance free.
